Banks Ram-Air® Intake System '07-09

Enclosed housing, huge inlet & large tubing **double** the stock airflow. Big filter area increases breathing ability. Reusable lifetime filter has superior high-flow filtration. Accommodates engine movement for reliable service life. Increases power & fuel economy. **TESTED & PROVEN.**

IMPROVES
AIRFLOW
UP TO: **116%**

HUGE INLET

Monster® Exhaust

100% stainless system **more than doubles** the stock flow & cuts backpressure, increasing power & fuel economy. Polished straight-through muffler has a rich & throaty sound. Easy bolt-on design; includes polished stainless tailpipe tip. Lifetime warranty.

TorqueTubes® Exhaust Manifold(s)

Stainless & indestructible, TorqueTubes have a thick flange double welded and machined dead flat for a tight, leak free fit. No cracking, separating or warping. Optimizes flow & improves responsiveness. Easy installation - bolts right on. Lifetime warranty.

PowerPack® System

The ultimate Jeep upgrade. Free breathing Ram-Air Intake System + high-flow Monster Exhaust + Banks' torque maximizing TorqueTubes exhaust manifold. Result: instant response, more power for any terrain, and greater fuel efficiency.
